- Linux Systems
- Critical Thinking
- Version Control
- CI/CD Pipelines
- Web Technologies
- Collaboration & Teamwork
- Autonomous Work & Self-Management
- Continuous Learning & Adaptability

HOBBIES

- Reading
- Traveling

LANGUAGE

- Italian
- English

PROFILE

Self-taught front-end developer based in Italy with hands-on experience on diverse projects. Though primarily focused on web development, I'm also passionate about cybersecurity and Linux systems. I actively contribute to open-source projects and strongly believe in continuous learning to explore emerging technologies and craft better solutions.

WORK EXPERIENCE

Freelance Web Developer

2023 - 2024

Self-employed / Remote

- Developed responsive and modern web applications using Vue.js, Nuxt.js, and Tailwind CSS.
- Managed website design, content, and SEO, Branding and Logo Design.
- Managed multiple projects end-to-end, from client communication to deployment.

Open Source Maintainer

2025 - Present

Vue.js Ecosystem

- Contributing to Vue.js component libraries such as [shadcn-vue](#) and [Inspira UI](#).
- Building new features, writing documentation, and participating in community discussions.
- Reviewing code to enhance developer experience and overall accessibility of open source tools.
